Are you looking to get a demo reel? Naturally you are or else you wouldn't be here! Either way, welcome! We are Ellis Knight & Jake Walters; two British voice actors and now demo producers. We both offer separate services in mixing, scripting, directing and video editing. We also offer a package deal with all of the above included! Still interested? We hope so!

"Greetings! I'm Ellis, and I'll be the person scripting and directing your demo. I'll aim to give you a script that'll engage your listeners, show off your skills and cater to your own needs and desires!

Just tell me what you want and I'll write it up. I can also direct you as you record for your demo. Making sure you understand and make the characters your own. After all it's your script and your characters! Most importantly.

I will be making sure you have fun- OR ELSE..."

"Hey! I'm Jake, the dude that's gonna make you sound professional as hell, While I don't have a professional level of experience with mixing, id like to think that my work speaks for itself, I will take all the time and effort that it takes to make YOUR demo sound the best it can possibly be!"

**GIVE ME MONEY**

(P.S. you can absolutely give me guidance on how you want the demo to sound, I'm a real person that wants to give you a cool demo...not a machine \*does a backflip\*)

## How does it work?

**Before we start please note:** We will not make demos if we don't think you're ready. Make sure you have a decent hold on your VO skills, and have good audio. We don't want to give you a demo that'll be subpar.

When you reach out to us we'd like to know more about you! Please inform us of your experience in VO; such as training, past projects and anything else you deem relevant. We'd also like a simple raw audio sample- to make sure your audio is up to scratch.

If you pass that you will have a conversation with Ellis discussing what characters and scenes you'd like to have in your script. It'll make sure you get a script that you will be comfortable with. Ellis will then send you your script and get your feedback. This is where you can ask for changes and such to your script. This is also when you will plan your recording date.

Next you will record your demo with Ellis and Jake! This can be done via, Zoom, Discord, Skype or other platforms. Just ask and we will see if we can do it Next your chosen recordings will be sent to us and given to Jake to begin mixing. Feel free to tell Jake what you have in mind for SFX, Music and such- or simply let him have the reins!

**Jake mixes your demo.**  
**You listen and inform us if you are happy! If so- Hurray, we're all happy!**
